Being YOU and celebrating your unique style has been our focus. Whether it is a fabulous gold watch chain with unusual orbs, earrings which make you feel special every single time you put them in your ears, that cupboard of colorful Majolica which adds happiness to any room, crisp ironstone and salt glaze which make a quiet statement, or those folky pieces, such as quilts, that make you smile every time, these are the pieces which make YOU HAPPY. Our sourcing trips have one goal and that is to make sure we find something JUST FOR YOU! So what have the Munday Women found? It is like Santa opening his bag...and perhaps...that may be your goal this trip....to find something UNIQUE for those loved ones on your holiday list.

Where do we even begin? Statement pieces for your holiday tablescapes seems like a good place – the most mesmerizing ironstone foot baths...ones with blue and white stripes amid subtle flowers with matching water pitcher(largest pitcher we have ever ever seen!), very special Gaudy Welsh bold orange and blues, or perhaps YOU prefer "Barbie" pink flowers intertwined with brilliant green leaves, still not you...how about a plain one or two or three!

- Large transferware platters to serve those wonderful meals or to add that "punch" to your wall or cupboard – massive serene blue ones with countryside scenes as well as amazing bold floral, largest ever brown floral, oversize vivid blue and crisp white, and even a few early green ones
- Early and crisp white more to your liking? Most extensive collection ever of early white salt-glaze pitchers and syrups with various floral and wheat motifs! Love the muted green and blue glazes as well – pitchers and syrups in those too! Prefer people...pitchers and syrups alike in those as well...oh and A FABULOUS rich blue cake dome with brilliant white ferns! Oh my!
- Early tall, glass dome to highlight that special piece or create a holiday vignette
- Regal jewel tones of cobalt, turquoise, majestic pink, and brilliant yellow come to life in the massive Majolica collections – a bevy of stately parrot, cockatoo, and owl pitchers, luscious centerpiece bowls with hounds as well as wild roses, most amazing pair of centerpiece bowls resting on luscious pigeons, fabulous cheese dome with corn, platters in every colorway and subject matter from turquoise floral to exceptional round pineapple, pitchers to delight the senses from fun floral to warm acorn and natural scenes, a myriad of spectacular syrups, enough plates to create any wall vignette desired, and a GORGEOUS cobalt garden seat with wading birds!
- George Jones Majolica certainly embodies Exceptional – wonderful cobalt oyster plate, rare Pair of cobalt "dogwood" tazzas and matching oversize muffin dome, pitchers with bold white irises in both rich cobalt as well as vivid lavender, lovely turquoise cheese dome, and even a rare all white one to entice not just Majolica collectors but ironstone ones as well
- Speaking of ironstone...pitchers are always a necessity for those fall sunflower arrangements to make the house feel alive. Rarest patterns and very best from tall ewers to creamers which are perfect for welcoming arrangements in the guest quarters, tureens from plain to highly embossed to add extra pizzazz while serving all those holiday meals, platters and more platters, even a meat tenderizer and relishes are among the latest
